STUDENT / SOFTWARE & CYBERSECURITY INTERESTS

Hi, I'm Abhi .

B.Tech Computer Science Engineering Student

I study at Sahyadri College of Engineering & Management in Mangalore. I'm interested in software engineering, cybersecurity, artificial intelligence, and emerging technologies.

01 / EDUCATION

B.Tech - Computer Science Engineering

Sahyadri College of Engineering & Management, Mangalore - Currently pursuing

Pre-University / 12th

Ambika PU College, Puttur - Completed

School

Priyadarshani English Medium School, Puttur - Completed

02 / TECHNICAL SKILLS & TOOLS

C Programming | Python | HTML | CSS | Git | VS Code | Arduino | MIT App Inventor | Cybersecurity | AI / ML

03 / OUTSIDE CLASS

Gaming, coding, exploring technology, anime, music, and learning cybersecurity.

04 / SELECTED PROJECTS

Ideas into experiments.

Exploring software, AI, hardware, and real-world problems.

01 / PROPOSED AI CONCEPT

GeoShield AI

A proposed system for predicting landslide and flood risk using rainfall, soil moisture, slope angle, seismic activity, river levels, temperature, vegetation, and historical disaster information.

02 / ARDUINO / EMBEDDED SYSTEMS

Arduino Robotic Vehicle

A hands-on project using Arduino and electronic components, gaining practical experience in hardware control, programming, and embedded systems.

05 / BEYOND THE SCREEN

Karate - Shotokan

Black belt, national-level competition experience, and national-level medal achievements.

06 / AREAS OF INTEREST

- Cybersecurity & Ethical Hacking
- Software Engineering
- AI & Machine Learning
- Web Development
- Open Source
